REGULATORY AND COMPETITION LAW CV

Gordon is an experienced regulatory practitioner with a special interest in the generic approach to regulation taken by both legislators and regulators. He provides advice and assistance in all forums (judicial review, statutory tribunals and criminal as well as damages claims). He makes active use of EU provisions, and has an interest in competition/state aid issues, including especially network industries and the role of the state pre- and post- liberalisation. He appears in the Competition Appeal Tribunal.

He is a recognised specialist in litigation funding and costs expert with a good understanding of regulatory issues concerning solicitors (including procurement). He has recently advised local authority legal departments on social security procurement matters and as to the extent to which they can charge for services.

Gordon has drafted many agreements requiring an understanding of regulatory issues concerning solicitors, EU instruments concerning various issues and the protection due to consumers, FSMA and insurance matters. See also his specialist profiles on environmental & planning law and financial services law. Work in 2016 has included advice and advocacy in connection with the regulation of the housing sector, in particular the requirement to give reasons and to consult prior to the service of enforcement notices.
